

Format for Alternate Id Validation

1. Once an alternate Id is entered by a Training Partner on SDMS, PMKVY PMU team validates the alternate Id offline. This step is done to match the identity of the candidates.
2. Training Partner needs to share the detail of the candidates in below mention format for validation post updating the same detail on SDMS. Training Partner should strictly follow the format while sharing the detail at the time of validation.

Candidate ID	Type of ID (Voter/Pan Card)	Name as per SDMS	Name as per Voter card/ Pan card	Pan card number/voter Card Number
A	Pan Card	Sohan kumar	Sohan kumar	TWQPS3030M
B	Voter Card	Rana Dev	Rana Dev	DOUMD5692L

3. There is a column for 'alternate Id validation status' on SDMS that the training partner can view, which will have one of three statuses:
 - ✓ Alternate Id validation="Blank" or "No Value" means that validation has not been done yet
 - ✓ Alternate Validation="YES" means that Name and Alternate Number Match. No Need for any further action by TP.
 - ✓ Alternate Validation ="NO" Name and alternate Id don't Match

The details in the above format are to be sent through email attaching a separate excel sheet to pmkvy@nsdcindia.org marking a copy to staraadharscan@gmail.com

Please note that this is one time activities and we will not be responsible for revalidation if data first time shared from training partner end is incorrect or not matching as per the alternate Id.
