

## QUALIFICATIONS PACK - OCCUPATIONAL STANDARDS FOR TEXTILE SECTOR

### What are Occupational Standards(OS)?

- OS describe what individuals need to do, know and understand in order to carry out a particular job role or function
- OS are performance standards that individuals must achieve when carrying out functions in the workplace, together with specifications of the underpinning knowledge and understanding

### Introduction

## Qualifications Pack – Knitting Machine Operator - Flat Bed Knitting

**SECTOR:** TEXTILE

**SUB-SECTOR:** KNITTING

**OCCUPATION:** KNITTING

**REFERENCE ID:** TSC/ Q 4102

**ALIGNED TO:** NCO-2004 /8262.30

**Brief Job Description:** A Knitting operator is responsible to operate industrial knitting machines; repair yarn-related faults at the knitting head and fabric press-offs; operate process machines ancillary to the knitting production; identify and sort wastes; and demonstrate knowledge of yarn-related faults in knitted fabrics. This job requires the individual to have thorough knowledge in process flow and material flow in a knitting machine for fabric production and should know the important functions and operations of knitting machines.

**Personal Attributes:** A knitting operator should have good eyesight, hand-eye-leg coordination, motor skills and vision. He/she should also have good interpersonal skills.

<b>Performance Criteria</b>	As described in the relevant OS units			

**Table 1: Glossary of Key Terms**

Keywords /Terms	Description
Definitions	Sector is a conglomeration of different business operations having similar businesses and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Vertical	Vertical may exist within a sub-sector representing different domain areas or the client industries served by the industry.
Occupation	Occupation is a set of job roles, which perform similar/related set of functions in an industry.
Function	Function is an activity necessary for achieving the key purpose of the sector, occupation, or area of work, which can be carried out by a person or a group of persons. Functions are identified through functional analysis and form the basis of OS.
Sub-functions	Sub-functions are sub-activities essential to fulfill the achieving the objectives of the function.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organization.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the knowledge and understanding they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria	Performance Criteria are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are Occupational Standards which apply uniquely in the Indian context.
Qualifications Pack Code	Qualifications Pack Code is a unique reference code that identifies a qualifications pack.
Qualifications Pack(QP)	Qualifications Pack comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A Qualifications Pack is assigned a unique qualification pack code.
Unit Code	Unit Code is a unique identifier for an OS unit, which can be denoted with either an 'O' or an 'N'.
Unit Title	Unit Title gives a clear overall statement about what the incumbent should be able to do.

Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is the set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on the quality of performance required.
Knowledge and Understanding	Knowledge and Understanding are statements which together specify the technical, generic, professional and organizational specific knowledge that an individual needs in order to perform to the required standard.
Organizational Context	Organizational Context includes the way the organization is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical Knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/Generic Skills	Core Skills or Generic Skills are a group of skills that are key to learning and working in today's world. These skills are typically needed in any work environment. In the context of the OS , these include communication related skills that are applicable to most job roles.
<b>Keywords /Terms</b>	<b>Description</b>
SSC	Sector Skill Council
OS	Occupational Standard(s)
NOS	National Occupational Standard(s)
QP	Qualifications Pack
NSQF	National Skill Qualifications Framework
NCO	National Classifications of Occupation
TBD	To Be Determined
TSC	Textile Sector Skill Council
NSDC	National Skill Development Corporation

# National Occupational Standard

## Overview

**This unit is about piecing the yarn and doffing the fabric roll in the knitting machine**

**TSC /N4107 Piecing the yarn and doffing the fabric roll in the knitting machine**

National Occupational Standard	<b>Unit Code</b>	TSC/ 4107
	<b>Unit Title (Task)</b>	<b>Piecing the yarn and doffing the fabric roll in the knitting machine</b>
	<b>Description</b>	This unit is about carrying out piecing, cleaning and maintenance activities in the knitting department
	<b>Scope</b>	<b>This unit/task covers the following:</b> <ul style="list-style-type: none"> <li>▪ Attending the machine on yarn breakage</li> <li>▪ Piecing the yarn</li> <li>▪ Checking the quality of piecing</li> <li>▪ Carryout doffing</li> </ul>
	<b>Elements</b>	<b>Performance Criteria</b>
	Attending the machine on yarn breakage	to be competent, you must be able to: PC1. identify whether the machine stoppage by viewing the signal lamps and in display panel PC2. identify the reasons for yarn breakage PC3. ensure minimum time is taken for attending the yarn breakage in carding department
	Piecing the yarn	PC4. unwind the yarn from the cone PC5. ensure proper piecing PC6. draw the yarn through the guide, guide rollers and pass it through the stopmotin , feeder in the delivery zone PC7. ensure proper functioning of knitting machine post piecing PC8. collect the waste collected during piecing and store the waste at respective waste box PC9. segregate the reusable wastes and weigh and record them in a register PC10. ensure standard piecing procedure is adopted and quality of piecing is as per standards PC11. ensure minimum time is taken for piecing the yarn. PC12. ensure safety while carrying out piecing activity
	Check the quality of piecing	PC13. verify the quality of piecing done in the yarn PC14. ensure yarn tension in the creeling section is appropriate PC15. ensure proper functioning of the machine
	Carry out doffing	PC16. collect the empty cones from creel and replace with a full cone PC17. ensure whether the fabric roll is ready for doffing by viewing the details in display panel or by manual PC18. keep the empty fabric roller ready for replacement PC19. to keep the empty fabric roll near the knitting machine in manual doffing PC20. to doff the full fabric roll in case of manual doffing PC21. ensure proper doffing procedure is followed PC22. ensure doffing is carried out properly PC23. move the fabric roll to the storage area PC24. ensure the knitting machine is properly restarted after doffing
	Post doffing	PC25. ensure proper functioning of knitting machine post doffing

## TSC /N4107 Piecing the yarn and doffing the fabric roll in the knitting machine

responsibilities	PC26. ensure proper material handling of yarn, cone and empty cone PC27. ensure proper material handling of tools and equipments

## Overview

This unit is about maintaining work areas and activities to ensure tools and machines are maintained as per norms.

**TSC/ N9001**

**Maintaining work area, tools and machine**

<b>Unit Code</b>	<b>TSC/ N9001</b>
<b>Unit Title (Task)</b>	<b>Maintaining work area, tools and machines</b>
<b>Description</b>	This unit provides performance criteria, knowledge & understanding and skills & abilities required to organise/ maintain work areas and activities to ensure tools and machines are maintained as per norms
<b>Scope</b>	This unit/task covers the following: <ul style="list-style-type: none"> <li>▪ Maintain the work area, tools and machines</li> </ul>
<b>Performance Criteria (PC) w.r.t. the Scope</b>	
<b>Elements</b>	<b>Performance Criteria</b>
Maintain the work area, tools and machines	<p>To be competent, you must be able to:</p> <p>PC1. handle materials, machinery, equipment and tools with care and use them in the correct way</p> <p>PC2. use correct lifting and handling procedures</p> <p>PC3. use materials to minimize waste</p> <p>PC4. maintain a clean and hazard free working area</p> <p>PC5. maintain tools and equipment</p> <p>PC6. carry out running maintenance within agreed schedules</p> <p>PC7. carry out maintenance and/or cleaning within one's responsibility</p> <p>PC8. report unsafe equipment and other dangerous occurrences</p> <p>PC9. ensure that the correct machine guards are in place</p> <p>PC10. work in a comfortable position with the correct posture</p> <p>PC11. use cleaning equipment and methods appropriate for the work to be carried out</p> <p>PC12. dispose of waste safely in the designated location</p> <p>PC13. store cleaning equipment safely after use</p> <p>PC14. carry out cleaning according to schedules and limits of responsibility</p>
<b>Knowledge and Understanding (K)</b>	
<b>A. Organizational Context</b> (Knowledge of the company/ organization and its processes)	<p>You need to know and understand:</p> <p>KA1. personal hygiene and duty of care</p> <p>KA2. safe working practices and organisational standard operating procedures</p> <p>KA3. limits of your own responsibility</p> <p>KA4. ways of resolving with problems within the work area</p> <p>KA5. the production process and the specific work activities that relate to the whole process</p> <p>KA6. the importance of effective communication with supervisors</p> <p>KA7. the lines of communication, authority and reporting procedures</p> <p>KA8. the organisation's rules, codes and guidelines (including timekeeping)</p> <p>KA9. the company's quality standards</p> <p>KA10. the importance of complying with written instructions</p> <p>KA11. equipment operating procedures / supervisor's instructions</p>
<b>B. Technical Knowledge</b>	<p>You need to know and understand:</p> <p>KB1. work instructions and specifications and interpret them accurately</p> <p>KB2. relation between work role and the overall manufacturing process</p> <p>KB3. hazards likely to be encountered when conducting routine maintenance</p>

**TSC/ N9001**

**Maintaining work area, tools and machine**

	<p>KB4. the importance of taking action when problems are identified                  KB5. different ways of minimising waste                  KB6. the importance of running maintenance and regular cleaning                  KB7. effects of contamination on products i.e. machine oil, dirt, foreign materials                  KB8. common faults with equipment and the method to rectify                  KB9. maintenance procedures                  KB10. different types of cleaning equipment and substances and their use                  KB11. safe working practices for cleaning and the method of carrying them out</p>
<b>Skills (S)</b>	
<p><b>A. Core Skills/                  Generic Skills</b></p>	<b>Writing Skills</b>
	<p>You need to know and understand how to:                  SA1. Write clear and short sentences</p>
	<b>Reading Skills</b>
	<p>You need to know and understand how to:                  SA2. comprehend written instructions                  SA3. read any application sent by other colleagues</p>
	<b>Oral Communication (Listening and Speaking skills)</b>
<p>You need to know and understand how to:                  SA4. Communicate effectively in simple language                  SA5. communicate with supervisor appropriately                  SA6. talk to others to convey information effectively</p>	
<p><b>B. Professional Skills</b></p>	<b>Problem Solving</b>
	<p>You need to know and understand how to:                  SB1. identify the real reason of problem faced                  SB2. apply problem-solving approaches in different situations                  SB3. refer anomalies to the supervisor                  SB4. seek clarification on problems from others</p>
	<b>Attention to Detail</b>
<p>You need to know and understand how to:                  SB5. apply good attention to detail                  SB6. check your work is complete and free from errors                  SB7. make sure every kind of communication is error free</p>	
<p><b>C. Technical Skills</b></p>	<p>You need to know and understand :                  SC1. communicate effectively                  SC2. apply leadership skills wherever required                  SC3. take initiative at the right place                  SC4. understand the requirement to be creative</p>

This unit is about working as part of a team in the textile industry.

TSC/ N9002

Working in a team

<b>Unit Code</b>	TSC/ N9002
<b>Unit Title (Task)</b>	Working in a team
<b>Description</b>	This unit is about working as a team member in the textile industry
<b>Scope</b>	This unit/task covers the following: <ul style="list-style-type: none"> <li>▪ commitment and trust</li> <li>▪ communication</li> <li>▪ adaptability</li> <li>▪ creative freedom</li> </ul>
<b>Performance Criteria (PC) w.r.t. the Scope</b>	
<b>Elements</b>	<b>Performance Criteria</b>
Commitment and trust	To be competent, you must be able to: PC1. be accountable to the own role in whole process PC2. perform all roles with full responsibility PC3. be effective and efficient at workplace
Communication	PC4. properly communicate about company policies PC5. report all problems faced during the process PC6. talk politely with other team members and colleagues PC7. submit daily report of own performance
Adaptability	PC8. adjust in different work situations PC9. give due importance to others' point of view PC10. avoid conflicting situations
Creative freedom	PC11. develop new ideas for work procedures PC12. improve upon the existing techniques to increase process efficiency
<b>Knowledge and Understanding (K)</b>	
<b>A. Organizational Context</b>	You need to know and understand: KA1. standard operating procedures (SOP) and regulations in a textile mill KA2. procedure followed to get the final output in the mill KA3. safe working practices to be adopted in textile mill KA4. reporting to the supervisor or higher authority about any grievances faced
<b>B. Technical Knowledge</b>	KB1. the importance of the previous and next step of the process KB2. process flow in a textile mill and the concerned workers KB3. material flow in a textile mill and the required person KB4. functions of different parts of the machine KB5. tools and equipments used KB6. guidelines for operating the machine KB7. safety procedures to be followed in the machine
<b>Skills (S)</b>	
<b>A. Core Skills/ Generic Skills</b>	<b>Writing Skills</b>
	You need to know and understand how to: SA1. write clear and short sentences SA2. write daily work report SA3. write grievance complaint application
	<b>Reading Skills</b>

## Overview

This unit is about maintaining health, safety, and security standards at workplace.

**TSC/ N9003**

**Maintain health, safety and security at work place**

<b>Unit Code</b>	<b>TSC/ N9003</b>
<b>Unit Title (Task)</b>	<b>Maintain health, safety and security at work place</b>
<b>Description</b>	This unit provides performance criteria, knowledge & understanding and skills & abilities required to comply with health, safety and security requirements at the workplace and covers procedures to prevent, control and minimize risk to self and others.
<b>Scope</b>	This unit/task covers the following: <ul style="list-style-type: none"> <li>▪ comply with health, safety and security requirements at work</li> <li>▪ recognizing the hazards</li> <li>▪ planning the safety techniques</li> <li>▪ implementing the programs</li> </ul>
<b>Performance Criteria (PC) w.r.t. the Scope</b>	
<b>Elements</b>	<b>Performance Criteria</b>
Comply with health, Safety and security requirements at work	<p>To be competent, operator must be able to:</p> <p>PC1. comply with health and safety related instructions applicable to the workplace</p> <p>PC2. use and maintain personal protective equipment such as “ear plug”, “ nose mask “, “ head cap” etc., as per protocol</p> <p>PC3. carry out own activities in line with approved guidelines and procedures</p> <p>PC4. maintain a healthy lifestyle and guard against dependency on intoxicants</p> <p>PC5. follow environment management system related procedures</p> <p>PC6. identify and correct (if possible) malfunctions in machinery and equipment</p> <p>PC7. report any service malfunctions that cannot be rectified</p> <p>PC8. store materials and equipment in line with organisational requirements</p> <p>PC9. safely handle and remove waste</p> <p>PC10. minimize health and safety risks to self and others due to own actions</p> <p>PC11. seek clarifications, from supervisors or other authorized personnel in case of perceived risks</p> <p>PC12. monitor the workplace and work processes for potential risks and threat</p> <p>PC13. carry out periodic walk-through to keep work area free from hazards and obstructions, if assigned</p> <p>PC14. report hazards and potential risks/ threats to supervisors or other authorized personnel</p> <p>PC15. participate in mock drills/ evacuation procedures organized at the workplace</p> <p>PC16. undertake first aid, fire-fighting and emergency response training, if asked to do so</p> <p>PC17. take action based on instructions in the event of fire, emergencies or accidents</p> <p>PC18. follow organisation procedures for shutdown and evacuation when required</p>
Recognizing the hazards	<p>To be competent, you must be able to:</p> <p>PC19. identify different kinds of possible hazards (environmental, personal, ergonomic, chemical) of the industry</p> <p>PC20. recognise other possible security issues existing in the workplace</p>
Planning the safety	PC21. recognise different measures to curb the hazards

**TSC/ N9003 Maintain health, safety and security at work place**

techniques	
Implementing the programs	PC22. communicate the safety plan to everyone PC23. attach disciplinary rules with the implementation
<b>Knowledge and Understanding (K)</b>	
<b>A. Organizational Context</b> (Knowledge of the company/ organization and its processes)	You need to know and understand: KA1. standard operating procedures (SOP) and regulations in a textile mill KA2. safe working practices to be adopted in textile mill KA3. quality systems and other processes practiced in the textile mill KA4. health and safety related practices applicable at the workplace KA5. potential hazards, risks and threats based on nature of operations KA6. organizational procedures for safe handling of equipment and machine operations KA7. potential risks due to own actions and methods to minimize these KA8. environmental management system related procedures at the workplace KA9. layout of the plant and details of emergency exits, escape routes, emergency equipment and assembly points KA10. potential accidents and emergencies and response to these scenarios KA11. reporting protocol and documentation required KA12. details of personnel trained in first aid, fire-fighting and emergency response KA13. actions to take in the event of a mock drills/ evacuation procedures or actual accident, emergency or fire
<b>B. Technical Knowledge</b>	You need to know and understand: KB1. occupational health and safety risks and methods KB2. personal protective equipment and method of use KB3. identification, handling and storage of hazardous substances KB4. proper disposal system for waste and by-products KB5. signage related to health and safety and their meaning KB6. importance of sound health, hygiene and good habits KB7. ill-effects of alcohol, tobacco and drugs
<b>Skills (S)</b>	
<b>A. Core Skills/ Generic Skills</b>	<b>Writing Skills</b>
	You need to know and understand how to: SA1. write clear and short sentences
	<b>Reading Skills</b>
	SA2. read and understand the company instructions SA3. read and understand work instructions SA4. read and understand the safety guidelines
	<b>Oral Communication (Listening and Speaking skills)</b>
	SA1. listen to others attentively SA2. respond to emergencies, accidents or fire at the workplace SA3. evacuate the premises and help others in need while doing so SA4. the value of physical fitness, personal hygiene and good habits SA5. talk with others politely
<b>B. Professional Skills</b>	<b>Decision Making</b>
	SB1. identify correct safety measure for particular hazard

**TSC/ N9003**

**Maintain health, safety and security at work place**

	SB2. make required safety plans as and when required
	SB3. raise alarm in case of emergency
	<b>Analytical Thinking</b>
	SB4. know the use of correct safety measure whenever required
	<b>Attention to Detail</b>
	SB5. be attentive to details SB6. be careful to avoid occurrence of hazards
<b>C. Technical Skills</b>	You need to know and understand : SC1. maintainance of neatness at work SC2. procedure for reporting unwanted behavior

**TSC/ N9003**

**Maintain health, safety and security at work place**

### Assessment Criteria

<b>Job Role: Knitting Machine Operator - Flat Knitting</b> <b>Qualification Pack: Knitting Machine Operator - Flat Knitting</b> <b>Sector Skill Council: Textile Sector Skill Council</b>						
<b>Guidelines for assessment :-</b> 1. Criteria for assessment for each qualification pack will be created by the Sector Skill Council. Each performance criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for theory & skill practical for each PC. 2. The assessment for the theory part will be based on knowledge bank of question created by the SSC. 3. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/training centre (as per assessment criteria below). 4. To pass the qualification pack, every trainee should score a minimum of 80%.						
National Occupational Standards (NOS)	Performance Criteria (PC)	Total Marks	Out Of	Marks Allocation		
				Theory	Skills Practical	Viva
<b>1. TSC/N4105 (Taking charge of shift and handing over shift to operator )</b>	PC1. reach at least 10 - 15 minutes early to the work place	50	3	1	1	1
	PC2. bring the necessary operational tools to the department		3	1	1	1
	PC3. meet the previous shift operator and collect the information regarding the count, process, issues faced in quality, current beam production followed in the knitting department.		4	1	2	1
	PC4. be updated on information regarding the current order such as it is for which company and other details.		3	1	1	1
	PC5. ensure proper functioning of machine and problems if any should be reported to the supervisor and maintenance in-charge.		4	1	2	1
	PC6. understand and be informed about the current order quantity and balance quantity.		3	1	1	1

### Assessment Criteria

	PC7. be updated on the new order fabric details and quantity.		3	1	1	1
	PC8. clean the machine and department before handing over the shift.		4	1	2	1
	PC9. hand over the necessary operational tools if any.		4	1	2	1
	PC10. meet the next shift operator and give the information regarding the count, GSM, loop length, process, issues faced in quality, and current fabric production followed in the knitting department.		4	1	2	1
	PC11. note the production details for the current shift		4	1	2	1
	PC12. ensure proper functioning of the machine and problems if any, should be reported to the supervisor and maintenance in-charge.		4	1	2	1
	PC13. give details to the next shift operator about the current order quality, quantity and balance quantity.		4	1	2	1
	PC14. convey information regarding new order fabric details and quantity.		3	1	1	1
			50	14	22	14
	<b>Total</b>	<b>Weightage %</b>				
<b>2. TSC/N4106 (Operate a flat knitting machine )</b>	PC1. start the machine	<b>200</b>	4	1	2	1
	PC2. operate the control switches for starting and stopping the knitting machine		4	1	2	1
	PC3. follow the signal lamps used in machines		5	1	2	2
	PC4. ensure proper functioning of the knitting machine by verifying the display panel		4	1	2	1
	PC5. ensure the machines are operated in accordance with workplace procedures.		4	1	2	1

### Assessment Criteria

PC6. ensure the yarns are run through correct yarn-paths at operating tensions according to machine-builder's instructions and workplace procedures.	6	2	2	2
PC7. ensure the yarns are creeled and ends joined in accordance with workplace procedures.	6	1	3	2
PC8. ensure the production is monitored for faults, and variations notified, in accordance with workplace procedures.	5	1	2	2
PC9. ensure the machines are monitored for continuous functioning of all systems, and variations notified, in accordance with workplace procedures.	5	1	2	2
PC10. ensure the production is removed from machines in accordance with workplace procedures.	6	2	2	2
PC11. ensure the documentation of production is completed in accordance with workplace procedures.	5	1	2	2
PC12. ensure the machines are lubricated as directed in accordance with workplace procedures.	6	2	2	2
PC13. ensure the yarn paths, eyelets, knitting heads, machines, and working environment are clean and free of contamination in accordance with workplace procedures.	8	2	4	2
PC14. check whether the yarns are properly fed in the knitting machine	4	1	2	1
PC15. knot the yarn during breakage	5	1	2	2
PC16. doff the full fabric roll	8	2	4	2
PC17. view the display panel or signal and identify the reasons for machine stoppages if any	6	2	2	2
PC18. ensure the knitting machine	7	2	3	2

### Assessment Criteria

	is running in the set speed by viewing the display panel				
	PC19. ensure the working area is clean	3	1	1	1
	PC20. ensure proper functioning of machine	5	1	2	2
	PC21. rethread incorrectly-positioned yarns in accordance with workplace procedures.	5	1	2	2
	PC22. join broken yarns or new ends in accordance with workplace procedures.	3	1	1	1
	PC23. fix fabric press-offs in accordance with machine-type and workplace procedures.	4	1	2	1
	PC24. reset machines for restart in accordance with workplace procedures.	5	1	2	2
	PC25. range after fault correction, style changes, and pattern changes	4	1	2	1
	PC26. ensure the feeder is working properly and yarn is uniformly fed into the feeder.	4	1	2	1
	PC27. support the fitter for carrying out maintenance activities	4	1	2	1
	PC28. ensure the gsm, loop length variation is within the limits and if it's abnormal report it to superiors.	4	1	2	1
	PC29. inform the supervisor and maintenance in- charge in case of a jam	4	1	2	1
	PC30. support the fitter during minor breakdown	4	1	2	1
	PC31. ancillary process machines are operated in accordance with machine-builder's instructions and workplace procedures.	5	1	2	2
	PC32. safety precautions that comply with workplace procedures are observed.	4	1	2	1
	PC33. the working environment is kept clean and free of contamination	4	1	2	1
	PC34. ensure proper material handling of yarn, cone and empty	4	1	2	1

### Assessment Criteria

	cone					
	PC35. ensure using proper material handling of tools and equipments		4	1	2	1
	PC36. ensure safety while operating the card		3	1	1	1
	PC37. using of safety gadgets like caps, masks and shoes and verifying the safety stop motions		3	1	1	1
	PC38. ensure the fabric produced is free from outside damages		3	1	1	1
	PC39. collect usable waste to be weighed at shift end and to be placed in the specified area		3	1	1	1
	PC40. inform superiors immediately, if any break down or fault in the machine is noticed		3	1	1	1
	PC41. ensure the proper functioning of signal lamps		3	1	1	1
	PC42. ensure that machine is always working properly, if any deviations inform superiors immediately		3	1	1	1
	PC43. identify yarn wastes by fibre content and sorted according to workplace procedures		3	1	1	1
	PC44. identify fabric wastes are identified and sorted according to workplace procedures.		4	1	2	1
	PC45. provide all relevant information of the current working process to the next shift operator before relieving		4	1	2	1
			200	52	86	62
	<b>Total</b>	<b>Weightage %</b>				
<b>3 . TSC/N4107 (Piecing the yarn and doffing the fabric roll in the knitting machine)</b>	PC1. identity whether the machine stoppage by viewing the signal lamps and in display panel	<b>100</b>	3	1	1	1
	PC2. identify the reasons for yarn breakage		4	1	2	1
	PC3. ensure minimum time is taken for attending the yarn breakage in carding department		4	1	2	1

### Assessment Criteria

PC4. unwind the yarn from the cone	3	1	1	1
PC5. ensure proper piecing	3	1	1	1
PC6. draw the yarn through the guide, guide rollers and pass it through the stopmotin , feeder in the delivery zone	5	1	2	2
PC7. ensure proper functioning of knitting machine post piecing	5	1	2	2
PC8. collect the waste collected during piecing and store the waste at respective waste box	3	1	1	1
PC9. segregate the reusable wastes and weigh and record them in a register	3	1	1	1
PC10. ensure standard piecing procedure is adopted and quality of piecing is as per standards	4	1	2	1
PC11. ensure minimum time is taken for piecing the yarn.	4	1	2	1
PC12. ensure safety while carrying out piecing activity	3	1	1	1
PC13. verify the quality of piecing done in the yarn	3	1	1	1
PC14. ensure yarn tension in the creeling section is appropriate	3	1	1	1
PC15. ensure proper functioning of the machine	4	1	2	1
PC16. collect the empty cones from creel and replace with a full cone	4	1	2	1
PC17. ensure whether the fabric roll is ready for doffing by viewing the details in display panel or by manual	5	1	2	2
PC18. keep the empty fabric roller ready for replacement	5	1	2	2
PC19. to keep the empty fabric roll near the knitting machine in manual doffing	5	1	2	2
PC20. to doff the full fabric roll in case of manual doffing	4	1	2	1
PC21. ensure proper doffing procedure is followed	4	1	2	1
PC22. ensure doffing is carried out properly	4	1	2	1

### Assessment Criteria

	PC23. move the fabric roll to the storage area		3	1	1	1
	PC24. ensure the knitting machine is properly restarted after doffing		3	1	1	1
	PC25. ensure proper functioning of knitting machine post doffing		3	1	1	1
	PC26. ensure proper material handling of yarn, cone and empty cone		3	1	1	1
	PC27. ensure proper material handling of tools and equipments		3	1	1	1
