Introduction

Qualifications Pack – Warehouse Quality Checker

SECTOR: LOGISTICS

SUB-SECTOR: Warehousing Storage and Warehouse Packaging

OCCUPATION: Warehouse Quality Checker

REFERENCE ID: LSC/Q2313

ALIGNED TO: NCO-2004/3152.90

Brief Job Description: Warehouse Quality Checkers are also known as Warehouse Quality Assessors or Quality Inspectors. Individuals in this role are responsible for inspecting the quality and checking conformance to specifications of inbound as well as outbound goods, segregating goods that do not meet requirements and documenting the results.

Personal Attributes: This job requires the individual to work well with his/her team and achieve joint goals. The individual must be able to prioritize and execute tasks within scheduled time limits. The individual should be able to maintain high concentration levels throughout his/her shift.

Job Details

Qualifications Pack Code	LSC/Q2313		
Job Role	Warehouse Quality Checker		
Credits (NSQF)	TBD	Version number	1.0
Sector	Logistics	Drafted on	02/02/2015
Sub-sector	Warehousing Storage and Warehouse Packaging	Last reviewed on	25/02/2015
Occupation	Warehouse Quality Checker	Next review date	02/08/2016

Job Role	Warehouse Quality Checker (Warehouse Quality Assessor, Quality Inspector)
Role Description	Inspect quality and check for conformance to specifications
NSQF level	3
Minimum Educational Qualifications*	Class X
Maximum Educational Qualifications*	Graduate (Engineering, Arts, Commerce, Science)
Training (Suggested but not mandatory)	NA
Experience	No experience necessary
Applicable National Occupational Standards (NOS)	Compulsory: <ol style="list-style-type: none"> 1. LSC/N2327 (Prepare for Testing) 2. LSC/N2328 (Carry out Quality Testing) 3. LSC/N2329 (Perform Post-Quality Assessment Activities) 4. LSC/N2332 (Maintain Health, Safety and Security measures in inspecting quality of the consignments) Optional: Not Applicable
Performance Criteria	As described in the relevant OS units

Definitions

Keywords /Terms	Description
Sector	Sector is a conglomeration of different business operations having similar businesses and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/related set of functions in an industry.
Function	Function is an activity necessary for achieving the key purpose of the sector, occupation, or area of work, which can be carried out by a person or a group of persons. Functions are identified through functional analysis and form the basis of OS.
Job Role	Job role defines a unique set of functions that together form a unique employment opportunity in an organization.
OS	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the knowledge and understanding they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria	Performance Criteria are statements that together specify the standard of performance required when carrying out a task.
NOS	NOS are Occupational Standards which apply uniquely in the Indian context.
Qualifications Pack Code	Qualifications Pack Code is a unique reference code that identifies a qualifications pack.
Qualifications Pack	Qualifications Pack comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A Qualifications Pack is assigned a unique qualification pack code.
Unit Code	Unit Code is a unique identifier for an Occupational Standard , which is denoted by an 'N'.
Unit Title	Unit Title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Knowledge and Understanding	Knowledge and Understanding are statements which together specify the technical, generic, professional and organizational specific knowledge that an individual needs in order to perform to the required standard.
Organizational Context	Organizational Context includes the way the organization is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical Knowledge is the specific knowledge needed to accomplish specific designated responsibilities.

National Occupational Standard

Overview

This unit is about preparing for testing.

Unit Code	LSC/N2327
Unit Title (Task)	Prepare for Testing
Description	This unit is about preparing for testing
Scope	<p>This OS unit/task covers the following:</p> <ul style="list-style-type: none"> Obtain necessary information from the supervisor Get the testing equipment ready
Performance Criteria (PC) w.r.t. the Scope	
Element	Performance Criteria
Obtain necessary information from the supervisor	<p>To be competent, the user/individual on the job must be able to:</p> <p>PC1. Understand the work schedule, daily targets and priorities (if any) from the supervisor.</p> <p>PC2. Obtain the inspection checklist, list of inbound and outbound items to be checked from the supervisor.</p> <p>PC3. Obtain information on the customer requirements, product specifications (such as weight, size, functional aspects, etc.) and tolerances which need to be checked for conformity.</p> <p>PC4. Find out what inspection method (such as random sampling, stratified sampling, 100% inspection, etc.) is to be used from the supervisor.</p>
Get the testing equipment ready	<p>PC5. Determine the testing equipment to be used for each product from the inspection checklist.</p> <p>PC6. Collect any portable testing equipment required from the storage area.</p> <p>PC7. Visually inspect the testing equipment to see if it is fit for use.</p> <p>PC8. Adjust any settings if required on the testing equipment.</p> <p>PC9. Ensure the Equipments are properly calibrated as per the recommendation</p> <p>PC10. Conduct a trial to ensure that the testing equipment is ready to carry out inspection.</p>
Knowledge and Understanding (K)	
A. Organizational Context (Knowledge of the company / organization and its processes)	<p>The user/individual on the job needs to know and understand:</p> <p>KA1. Types of documentation in organization e.g. inspection checklist, damaged goods form, quarantined goods forms, etc.</p> <p>KA2. Risk and impact of not following defined procedures/work instructions</p> <p>KA3. Records to be maintained and implications of non-maintenance of the same</p> <p>KA4. Knowledge of security procedures</p> <p>KA5. Rules and regulations on the warehouse floor as per company's standard operating procedure (SOP)</p>

LSC/N2327

Prepare for Testing

	<p>KA6. Knowledge of suppliers and customers along with their respective products.</p> <p>KA7. Organizational procedure for dealing with goods that failed the test.</p> <p>KA8. Escalation matrix for reporting identified problems</p> <p>KA9. Implications of improper quality inspection to the company</p>
B. Technical Knowledge	<p>The user/individual on the job needs to know and understand:</p> <p>KB1. Knowledge of the desired specifications and tolerances for different goods.</p> <p>KB2. Knowledge of different types of tests to be carried out on different products.</p> <p>KB3. Technical knowhow to operate the testing equipment.</p> <p>KB4. Deciding whether the goods have passed the test or not</p> <p>KB5. Response to emergencies e.g. fire</p> <p>KB6. Safety regulations while working on the warehouse shop floor.</p>
Skills (S)	
A. Core Skills/ Generic Skills	Writing Skills
	<p>The user/ individual on the job needs to know and understand how to:</p> <p>SA1. Note down the results of quality testing and prepare detailed reports.</p> <p>SA2. Fill out inspection checklists, damaged goods form, quarantined goods form and any other documentation.</p>
	Reading Skills
	<p>The user/individual on the job needs to know and understand how to:</p> <p>SA3. Read and understand specifications and tolerances.</p> <p>SA4. Read and understand instructions on how to carry out quality testing for different products.</p> <p>SA5. Read safety manuals and safety signs on the warehouse floorRead labels and understand the codes as per company procedures</p>
	Oral Communication (Listening and Speaking skills)
	<p>The user/individual on the job needs to know and understand how to:</p> <p>SA6. Communicate clearly with supervisors and peers</p> <p>SA7. Regularly communicate with all employees in the chain of activities on the shop floor to ensure activities are running smoothly</p> <p>SA8. Provide advice and guidance to peers and juniors</p>
B. Professional Skills	Decision Making
	<p>The user/individual on the job needs to know and understand how to:</p> <p>SB1. Ability to make a judgment as to whether the product meets the requirement or not.</p>
	Plan and Organize
	<p>The user/individual on the job needs to know and understand how to:</p> <p>SB2. Adjust according to volume, capacity and manpower needs during peak and non-peak hours</p> <p>SB3. Ability to concentrate on task at hand and complete it without errors</p>

	SB4. Be a team player and achieve joint goals.
	SB5. Flexibility to re-assess schedule in case of delays/additional orders
	Customer Centricity
	The user/individual on the job needs to know and understand how to:
	SB6. Understand the customer timelines and ensure that they are met.
	Problem Solving
	The user/individual on the job needs to know and understand how to:
	SB7. Identify trends/common causes for errors and suggest possible solutions to the manager.
	SB8. Notice common accidents and suggest safety measures to prevent the same
	Analytical Skills
	The user/individual on the job needs to know and understand how to:
	SB9. Suggest methods to streamline the quality inspection techniques
	SB10. Ability to keep track of the progress of each truck in real time.
	Critical Thinking Skills
	The user/individual on the job needs to know and understand how to:
	SB11. Ability to concentrate on task at hand and complete it without errors

Overview

This unit is about carrying out quality testing.

Unit Code	LSC/N2328
Unit Title (Task)	Carry out Quality Testing
Description	This unit is about carrying out quality testing
Scope	<p>This OS unit/task covers the following:</p> <ul style="list-style-type: none"> • Testing inbound goods • Testing outbound goods
Performance Criteria (PC) w.r.t. the Scope	
Element	Performance Criteria
Testing inbound goods	<p>To be competent, the user/individual on the job must be able to:</p> <p>PC1. Determine the number of goods to be tested based on the inspection method and the inbound lot size.</p> <p>PC2. Select the goods to be tested from the inbound goods in the staging area.</p> <p>PC3. Select the latest version of reference manual before the inspection process is initiated</p> <p>PC4. Prepare for testing by fixing the sample goods onto the testing equipment or fitting the testing equipment into the sample volume (in case of liquids).</p> <p>PC5. Use the equipment to carry out the test as per the inspection checklist and carry out checks on expiry date of inbound goods</p> <p>PC6. Compare test results with the desired product specifications and tolerances to determine if there are deviations.</p> <p>PC7. Identify damages, defects (if any) and determine if the inspection sample size needs to be increased.</p> <p>PC8. In case of damages, follow organizational guidelines including insurance procedure/LR etc.</p> <p>PC9. Complete testing of all the samples.</p> <p>PC10. Keep aside goods that failed to meet the product specifications and tolerances.</p> <p>PC11. Inform Supervisor of damaged goods that need to be taken care of or moved</p> <p>PC12. Inform the supervisor about the number of goods to be replaced by the supplier.</p> <p>PC13. Have the other goods put away for storage in the warehouse.</p> <p>PC14. Note down details of the condition of the goods</p>

Carry out Quality Testing

<p>Testing outbound goods</p>	<p>PC15. Determine the number of goods to be tested based on the inspection method and the outbound lot size.</p> <p>PC16. Select the goods to be tested from the outbound goods in the staging area.</p> <p>PC17. Select the latest version of reference manual before the inspection process is initiated</p> <p>PC18. Prepare for testing by fixing the sample goods onto the testing equipment or fitting the testing equipment into the sample volume (in case of liquids).</p> <p>PC19. Use the equipment to carry out the test as per the inspection checklist.</p> <p>PC20. Compare test results with customer specifications to determine if there are deviations.</p> <p>PC21. Identify damages, defects (if any) and determine if the inspection sample size needs to be increased.</p> <p>PC22. Complete testing of all the samples.</p> <p>PC23. Keep aside goods that failed to meet the customer specifications.</p> <p>PC24. Inform the supervisor about the number of replacement goods that are required from the warehouse to complete the customer order.</p> <p>PC25. Have the other goods moved, packed and loaded onto trucks for shipping to customers.</p> <p>PC26. Inform Supervisor of damaged goods that need to be taken care of or moved</p> <p>PC27. Note down details of the condition of the goods</p>
<p>Knowledge and Understanding (K)</p>

Qualifications Pack For Warehouse Quality Checker

PERFORMANCE CRITERIA

Job Role: Warehouse Quality Checker

Qualification Pack: LSC/Q2313

Sector Skill Council: LSC

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each PC.
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC.
3. Individual assessment agencies will create unique question papers for theory and skill practical part for each candidate at each examination/training center.
4. To pass the Qualification Pack, every trainee should score a minimum of 40% in every NOS overall 50% pass percentage.
5. In case of successfully passing only certain number of NOS's, the trainee is eligible to take subsequent assessment on the balance NOS's to pass the Qualification Pack.

		Marks Allocation			
		Total Marks	Out of	Theory	Skills Practical
