Monitoring activities in PMKVY

TO ALL THE TRAINING PARTNERS UNDER PMKVY SCHEME:

As PMKVY trainings get underway, we would like to reiterate the following points about the key scheme requirements and monitoring of the same –

1. The TP is supposed to
 - a. Prominently display the PMKVY branding material including posters inside and outside the center
 - b. Maintain enrolment and attendance records of all candidates enrolled and undergoing training
 - c. Has adequate infrastructure to impart the training as per the QP
 - d. Conduct the training as per the batch start and end date
 - e. Ensure that the correct center address is provided on the SDMS

Officials from Ministry of Skill Development & Entrepreneurship (MSDE), NSDC, PMKVY PMU and SSC may pay surprise visits to the centers and verify the above.

2. The TP is expected to collect the correct enrolment information from all candidates, and make them aware about the scheme and the monetary reward amount at the time of enrolment.

PMKVY PMU could use SMS verifications or call validations to verify all or any of this information reported via SDMS. Further Officials from Ministry of Skill Development & Entrepreneurship (MSDE), NSDC, PMKVY PMU and SSC may interact directly with the candidates during the site visits.

Site visits and Call validations have already been initiated for all centers and enrolments currently reported.

Please note that any adverse findings during site visits and call validation analysis would be taken as inputs for subsequent target allocation to TP/SSC and suitable action as per the consequence management system may be initiated in case of serious/repetitive breaches.
