

QUALIFICATIONS PACK - OCCUPATIONAL STANDARDS FOR MOULDING OPERATOR [LEATHER SECTOR]

What are Occupational Standards(OS)?

- OS describe what individuals need to do, know and understand in order to carry out a particular job role or function
- OS are performance standards that individuals must achieve when carrying out functions in the workplace, together with specifications of the underpinning knowledge and understanding

Introduction

Qualifications Pack – Moulding Operator

SECTOR:LEATHER SECTOR

SUB-SECTOR:FOOTWEAR

OCCUPATION:MOULDING

REFERENCE ID:LSS/N9101

ALIGNED TO: NCO-2004/8232.25

The Moulding Operation is a major process in non-leather segment of footwear manufacturing operations. This is the process during which the either upper and the PU sole is attached and the footwear is complete or the entire footwear is moulded and this process is carried out by a skilled operator.

Brief Job Description: Moulding operator is a skilled operator capable to operate PU pouring machines and Injection moulding machine used in lasting process and also skillful to perform basic supervisory tasks to monitor the performance of the workers.

Personal Attributes: Moulding Operator must possess, concentration, good eye-hand co-ordination, monitoring ability, vision (including near vision, distance vision, color vision, peripheral vision), depth perception, quick response time or reflex, physical fitness, target oriented as well basic estimation and numerical skills.

Qualifications Pack Code	LSS/N9101		
Job Role	Moulding Operator		
Credits (NVEQF/NVQF/NSQF)	TBD	Version Number	1
Sector	Leather	Drafted on	4th December 2013
Sub-sector	Footwear	Last reviewed on	
Occupation	Moulding	Next review date	24th December 2014
Job Role	Moulding Operator		
Role Description	The Moulding operator is a skilled operator capable to operate PU pouring machines and Injection moulding machine used in lasting process and also skillful to perform basic supervisory tasks to monitor the performance of the workers.		
NVEQF / NVQF level	4		
Minimum Educational Qualifications	Class V		
Maximum Educational Qualifications	N/A		
Training	On-the-Job-Training		
Applicable National Occupational Standards	Click on the hyperlink to read/download the required NOS 1. LSS/N9101 - Carry out moulding operations using machine 2. LSS/N9102 - Contribute to achieving product quality in moulding operation 3. LSS/N0204 - Maintain the work area, tools and machines 4. LSS/N3104 – Maintain health, safety and security at workplace 5. LSS/N0105 - Comply with industry, regulatory and Organizational requirements		
Performance Criteria	As described in the relevant OS units		

Definitions

Keywords /Terms	Description
Sector	Sector is a conglomeration of different business operations having similar businesses and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Vertical	Vertical may exist within a sub-sector representing different domain areas or the client industries served by the industry.
Occupation	Occupation is a set of job roles, which perform similar/related set of functions in an industry.
Function	Function is an activity necessary for achieving the key purpose of the sector, occupation, or area of work, which can be carried out by a person or a group of persons. Functions are identified through functional analysis and form the basis of OS.
Sub-functions	Sub-functions are sub-activities essential to fulfill achieving the objectives of the function.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organization.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the knowledge and understanding, he/she needs to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria	Performance Criteria are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are Occupational Standards which apply uniquely in the Indian context.
Qualifications Pack Code	Qualifications Pack Code is a unique reference code that identifies a qualifications pack.
Qualifications Pack (QP)	Qualifications Pack comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A Qualifications Pack is assigned a unique qualification pack code.
Unit Code	Unit Code is a unique identifier for an Occupational Standard, which is denoted by an 'N'.
Unit Title	Unit Title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to find the required one.
Scope	Scope is the set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on the quality of required performance.
Knowledge and Understanding	Knowledge and Understanding are statements which together specify the technical, generic, professional and organizational specific knowledge that an individual needs in order to perform up to the required standard.

Acronyms

Keywords /Terms	Description
OS	Occupational Standard(s)
NOS	National Occupational Standard(s)
QP	Qualifications Pack
NVEQF	National Vocational Education Qualifications Framework
NVQF	National Vocational Qualifications Framework
PU	Polyurethane
EVA	Ethylene Vinyl Acetate
TBD	To Be Determined

LSS/N9101 - Carry out moulding operations using machine

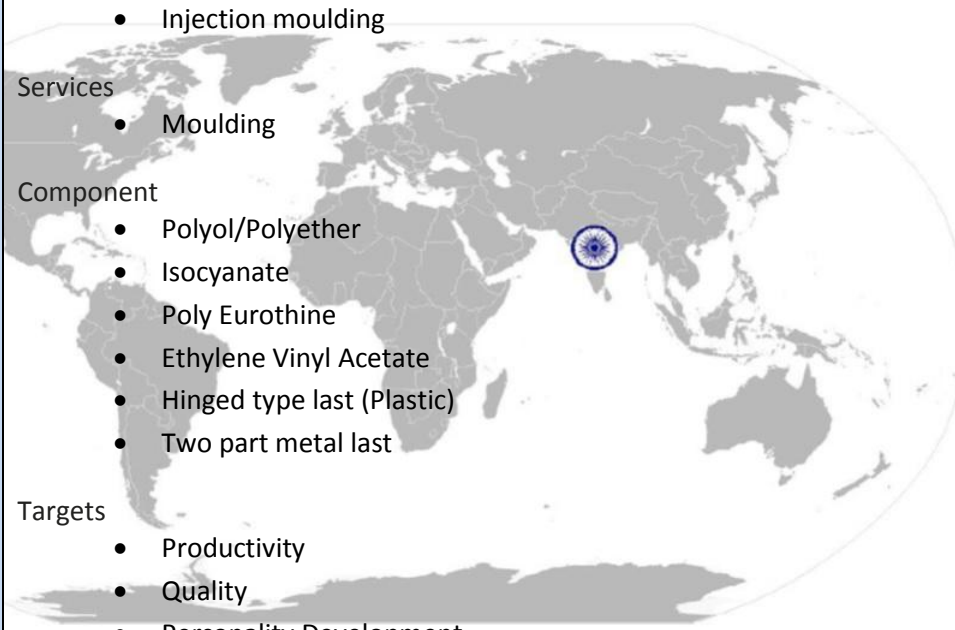

National Occupational Standard

Overview

This unit provides Performance Criteria, Knowledge & Understanding and Skills & Abilities required for footwear moulding operations by using appropriate machines, tools, equipment and processes.

LSS/N9101 - Carry out moulding operations using machine

Unit Code	LSS/N9101
Unit Title (Task)	Carry out moulding operations using machine
Description	This unit provides Performance Criteria, Knowledge & Understanding and Skills & Abilities required for footwear moulding operations by using appropriate machines, tools, equipment and processes.
Scope	<p>Material</p> <ul style="list-style-type: none"> Non-Leather upper <p>Tools</p> <ul style="list-style-type: none"> Spray Gun Trimmer <p>Machineries</p> <ul style="list-style-type: none"> PU (Polyurethane) pouring machine Injection moulding <p>Services</p> <ul style="list-style-type: none"> Moulding <p>Component</p> <ul style="list-style-type: none"> Polyol/Polyether Isocyanate Poly Eurothine Ethylene Vinyl Acetate Hinged type last (Plastic) Two part metal last <p>Targets</p> <ul style="list-style-type: none"> Productivity Quality Personality Development 
Performance Criteria (PC) w.r.t. the Scope	
Element	Performance Criteria
Preparatory Work	<p>To be competent, the user/individual on the job must be able to:</p> <p>PC1. Make sure the work area is free from hazards</p> <p>PC2. Obtain and check the data on the work ticket or job card and carry out functions in line with the responsibilities of job role</p> <p>PC3. Ask questions to obtain more information on tasks when the instructions are unclear</p> <p>PC4. Select and sort the tools and materials for the work</p> <p>PC5. Setup the equipment&machineries for lasting as per the job requirement</p> <p>PC6. Make sure that tools are safe and clean to use on the material</p>

LSS/N9101 - Carry out moulding operations using machine

	<p>PC7. Agree and review agreed upon work targets with supervisor</p> <p>PC8. Update and develop knowledge of the products</p> <p>PC9. Minimise wastage</p> <p>PC10. Produce the required batch of components to match the job card and the company's production targets</p> <p>PC11. Dispose of waste materials safely and return re-useable materials</p> <p>PC12. Work in conformance to legal requirements, organizational policies and procedures</p> <p>PC13. Carry out visual inspection to ensure the products are free from handling defects</p>
Moulding Operation	<p>PC1. Ensure adequate chemicals are fed into the PU machine or Injection Moulding machine (EVA)</p> <p>PC2. Ensure the machine is at appropriate temperatures</p> <p>PC3. Perform the cup test to ensure the quality of PU</p> <p>PC4. Monitor the performance of the workers</p> <p>PC5. De-last the shoes from the hinged type last or two part metal last as required</p> <p>PC6. Conduct a visual inspection to ensure the quality of the footwear</p>
Reporting & Documentation	<p>PC7. Report risks/ problems likely to affect services to the relevant person promptly and accurately</p> <p>PC8. Report defects in the tools and equipment that one do not have the authority to repair</p>
Sorting & Placing	<p>PC9. Sort and place work to assist the next stage of production and minimise the risk of damage</p> <p>PC10. Carry out closedown procedures on completion of work</p> <p>PC11. Leave work area safe and secure when work is complete</p>

Knowledge and Understanding w.r.t the Scope

Element	Knowledge and Understanding (K)
A. Organizational Context (Knowledge of the company / Organization and its processes)	<p>The user/individual on the job needs to know and understand:</p> <p>KA1. Details of the various job roles and responsibilities</p> <p>KA2. Responsibilities and line of reporting within the work area</p> <p>KA3. Protocol to obtain more information on work related tasks</p> <p>KA4. Organizational policies and procedures</p> <p>KA5. Work target and review mechanism with supervisor</p> <p>KA6. Protocol and format for reporting work related risks/ problems</p> <p>KA7. Contact person in case of queries on procedure or products</p> <p>KA8. Common hazards in the work area and procedures for dealing with them</p> <p>KA9. Procedures for handling the tools and equipment</p> <p>KA10. Procedures with regard to material re-usage and disposal</p> <p>KA11. Quality standards and the reporting procedures</p> <p>KA12. Documentation required as part of the process</p>
B. Technical /	<p>The user/individual on the job needs to know and understand:</p>

LSS/N9101 - Carry out moulding operations using machine

Domain Knowledge	KB1. Procedures to operate the PU moulding machines KB2. Procedures to operate the Injection Moulding Machine KB3. Procedures and concept of the operations followed in the moulding process KB4. The ways by which material can be contaminated or damaged during processing and the effects on quality KB5. Knowledge of the chemicals used in the PU moulding machine KB6. Knowledge of chemicals used in the Injection Moulding Machine KB7. Knowledge of the hinged type last and two part metal last KB8. Basic units of measurements knowledge KB9. Basic supervisory skills to monitor the workers
Skills	
A. Core Skills / Generic Skills	The user/ individual on the job needs to know and understand how to: SA1. Read, write and communicate orally SA2. Plan and manage work routine based on company procedure
B. Professional Skills	The user/ individual on the job needs to know and understand how to: SB1. Operate the PU pouring machine SB2. Operate Injection Moulding machine SB3. Conduct PU cup test SB4. De-last the shoes from hinged type last and two part metal last

LSS/N9102 - Contribute to achieving product quality in moulding operation

National Occupational Standard

Overview

This unit provides Performance Criteria, Knowledge & Understanding and Skills & Abilities required to monitor the quality of the production while undertaking moulding related activities to ensure products meet specifications.

LSS/N9102 - Contribute to achieving product quality in moulding operation

National Occupational Standard

Unit Code	LSS/N9102
Unit Title (Task)	Contribute to achieving product quality in moulding operation
Description	This unit provides Performance Criteria, Knowledge & Understanding and Skills & Abilities required to monitor the quality of the production while undertaking moulding related activities to ensure products meet specifications.
Scope	<p>Product specifications</p> <ul style="list-style-type: none"> Job card <p>Quality check</p> <ul style="list-style-type: none"> PU cup test <p>Process knowledge</p> <ul style="list-style-type: none"> ISO 5S process knowledge <p>Corrective action</p> <ul style="list-style-type: none"> Reporting Repairing <p>Tolerances</p> <ul style="list-style-type: none"> Productivity Wastage
Performance Criteria (PC) w.r.t the Scope	
Element	Performance Criteria
Inspection	<p>To be competent, the user/individual on the job must be able to:</p> <p>PC1. Set up and test lasting machines to ensure correct operation</p> <p>PC2. Operate the machine in accordance with machine and workplace standards</p> <p>PC3. Ensure the lasting operation is done accurately according to the specifications.</p> <p>PC4. Ensure the optimum condition of the PU pouring and injection moulding machines</p> <p>PC5. Check the performance of the machine for signs of faulty operations and take action in accordance with workplace procedures</p> <p>PC6. Ensure materials and component parts meet specifications</p> <p>PC7. Identify faults in materials and products</p> <p>PC8. Follow reporting procedures where the cause of faults cannot be identified</p> <p>PC9. Maintain the required productivity and quality levels</p> <p>PC10. Carry out quality checks at agreed intervals and in the approved way</p> <p>PC11. Identify process problems that effect product quality and report them promptly to appropriate people</p>

LSS/N9102 - Contribute to achieving product quality in moulding operation

Reporting & Documentation	<p>PC1. Identify causes of faults and take action to rectify the same to maintain product quality</p> <p>PC2. Identify faults in finished products and trace their causes</p> <p>PC12. Follow reporting procedures where the cause of faults cannot be identified</p> <p>PC13. Report and replace faulty materials and component parts which do not meet specification</p> <p>PC14. Report faults outside personal responsibility to the appropriate person</p>
Knowledge and Understanding (K)	
A. Organizational Context (Knowledge of the company / Organization and its processes)	<p>The user/individual on the job needs to know and understand:</p> <p>KA1. Types of problems with quality and how to report them to appropriate people</p> <p>KA2. Consequences of not rectifying problems</p> <p>KA3. Safe working practices and Organizational procedures</p> <p>KA4. Limits of personal responsibility</p> <p>KA5. The lines of communication, authority and reporting procedures</p> <p>KA6. The Organization's rules and guidelines (including timekeeping)</p> <p>KA7. The companies quality standards</p> <p>KA8. Equipment operating procedures / manufacturer's instructions</p>
B. Technical / Domain Knowledge	<p>The user/individual on the job needs to know and understand:</p> <p>KB1. The different types of faults likely to be found in the PU moulding process and method to put them right</p> <p>KB2. The different techniques and methods used to detect faults in the PU moulding process</p> <p>KB3. The inspection methods that can be used</p> <p>KB4. Importance of product checks</p> <p>KB5. The acceptable solutions for particular faults</p> <p>KB6. The consequences of not rectifying problems</p> <p>KB7. The types of adjustments suitable for specific types of faults</p> <p>KB8. Responsibilities at work during production</p> <p>KB9. Company's quality and production targets and the effect of not meeting these on self and/or the team</p> <p>KB10. Allowed tolerances</p> <p>KB11. Difference between correctable and non-correctable faults</p> <p>KB12. Manufacturer's instructions</p>
Skills (S)	
A. Core Skills / Generic Skills	<p>On the job the individual needs to be able to:</p> <p>SA1. Deal with problems within the work area, and within limits of personal responsibility</p> <p>SA2. Report problems outside area of responsibility to the appropriate person</p> <p>SA3. Read, write and communicate orally</p> <p>SA4. Plan and manage work routine based on company procedure</p>

LSS/N9102 - Contribute to achieving product quality in moulding operation

	SA5. Communicate effectively with colleagues
B. Professional Skills	<p>On the job the individual needs to be able to:</p> <p>SB1. Apply appropriate method of inspection</p> <p>SB2. Identify equipment parts</p> <p>SB3. Set up equipment and testing it</p> <p>SB4. Identify faults, the causes and rectification</p> <p>SB5. Identify equipment maintenance requirements and perform the maintenance procedure</p> <p>SB6. Identify, rectify and/or report major equipment faults and causes</p> <p>SB7. Check equipment and processes</p> <p>SB8. Handle different materials</p>
